TEEKAY LNG PARTNERS REPORTS FOURTH QUARTER AND ANNUAL RESULTS

Highlights

- Generated distributable cash flow of \$39.3 million in the fourth quarter of 2010, an increase of 17 percent from the fourth quarter of 2009.
- Increased cash distribution to \$0.63 per unit for the fourth quarter of 2010, an increase of five percent from the previous quarter.
- On November 4, 2010, completed acquisition of a 50 percent interest in two LNG carriers, including one with re-gasification capability, on long-term fixed-rate charters.
- During February 2011, received offer from Teekay Corporation to acquire a 33 percent interest in the four newbuilding Angola LNG carriers.

Hamilton, Bermuda, February 24, 2011 – Teekay GP LLC, the general partner of Teekay LNG Partners L.P. (*Teekay LNG or the Partnership*) (NYSE: TGP) today reported its results for the quarter ended December 31, 2010. During the fourth quarter of 2010, the Partnership generated distributable cash flow⁽¹⁾ of \$39.3 million, compared to \$33.5 million in the same quarter of the previous year. The increase primarily reflects the incremental distributable cash flow resulting from the Partnership's November 2010 acquisition of a 50 percent interest in two LNG carriers under long-term, fixed-rate charters with Excelerate Energy LP, reduced off-hire days relating to scheduled drydocks and higher profit sharing revenue from certain of the Partnership's vessels.

On January 26, 2011, the Partnership declared a cash distribution of \$0.63 per unit for the quarter ended December 31, 2010, an increase of \$0.03 per unit, or five percent, from the previous quarter. The cash distribution was paid on February 14, 2011 to all unitholders of record on February 7, 2011.

“The increase in distributable cash flow in the fourth quarter of 2010 compared to the fourth quarter of 2009 reflects another year of steady growth for the Partnership,” commented Peter Evensen, Chief Executive Officer of Teekay GP LLC. “Fiscal 2010 included some firsts for Teekay LNG, including the Partnership's first investment in third party LNG carriers through our transaction with Exmar, which was also our first step into the promising growth area of floating LNG regasification. Importantly, the five vessels added to the Partnership's fleet in 2010 all came with fixed-rate, long-term time-charter contracts and provided incremental cash flows which has enabled us to increase our distribution by five percent in the fourth quarter.”

Mr. Evensen continued, “The Partnership will continue to benefit in the near-term from built-in growth opportunities from our sponsor, Teekay Corporation, including three Skaugen LPG carriers scheduled for delivery in 2011 as well as the possible acquisition of a one-third interest in the four Angola LNG newbuildings. With over \$450 million of available liquidity, the Partnership is also actively seeking further opportunities to grow its distributable cash flow through the acquisition of quality assets with long-term contracts from third parties.”

(1) Distributable cash flow is a non-GAAP financial measure used by certain investors to measure the financial performance of the Partnership and other master limited partnerships. Please see *Appendix B* for a reconciliation of this non-GAAP measure to the most directly comparable GAAP financial measure.

Teekay LNG's Fleet

The following table summarizes the Partnership's fleet as of February 24, 2011:

	Number of Vessels		
	Delivered Vessels	Committed Vessels	Total
LNG Carrier Fleet ⁽¹⁾	17	-	17
LPG/Multigas Carrier Fleet	2	3 ⁽²⁾	5
Conventional Tanker Fleet	11	-	11
Total	30	3	33

⁽¹⁾ Excludes Teekay Corporation's 33 percent interest in the four Angola LNG newbuildings.

⁽²⁾ Represents the three Skaugen LPG/Multigas carriers currently under construction, as described below.

Exmar Acquisition

On November 4, 2010, the Partnership acquired a 50 percent interest in the 2005-built *Excelsior (Excelsior Joint Venture)*, a specialized gas carrier which can both transport and regasify LNG onboard, and a 50 percent interest in the 2002-built *Excalibur (Excalibur Joint Venture)*, a conventional LNG carrier, from Exmar NV (*Exmar*) for a total purchase price of approximately \$72.5 million net of assumed debt. The Partnership financed \$37.3 million of the purchase price by issuing to Exmar NV approximately 1.1 million new common units with the balance financed by drawing on one of the Partnership's revolving credit facilities. As part of the transaction, the Partnership agreed to guarantee 50 percent of the \$206 million of debt secured by the *Excelsior* and *Excalibur* Joint Ventures.

Dania Sprit Sale

The Partnership sold the 2000-built LPG carrier *Dania Spirit* for proceeds of \$21.5 million, which resulted in a gain of approximately \$4.3 million. The transaction was completed on November 5, 2010.

Future Projects

Below is a summary of LNG and LPG/Multigas newbuildings that the Partnership has agreed to, or has the right to, acquire:

Skaugen LPG/Multigas

The Partnership has agreed to acquire one LPG carrier from a subsidiary of IM Skaugen ASA (*Skaugen*) and two Multigas carriers from Teekay Corporation (*Teekay*). The three LPG/Multigas carriers are currently under construction and are expected to be delivered in 2011. Upon delivery, the vessels will commence service under 15-year fixed-rate charters to Skaugen.

Angola LNG

A consortium in which Teekay has a one-third interest, has agreed to charter four newbuilding LNG carriers for a period of 20 years to the Angola LNG Project, which is being developed by subsidiaries of Chevron, Sonangol, BP, Total and ENI. The vessels will be chartered at fixed rates, with inflation adjustments, following their deliveries. The vessels are currently under construction and are expected to deliver in 2011 and 2012. Pursuant to an omnibus agreement between the Partnership and Teekay, in February 2011, the Partnership received an offer from Teekay to acquire its interest in these vessels and related charter contracts. The offer is currently being reviewed by the Board of Directors of the Partnership's general partner and its Conflicts Committee.

Financial Summary

The Partnership reported adjusted net income attributable to the partners⁽¹⁾ (as detailed in *Appendix A* to this release) of \$26.2 million for the quarter ended December 31, 2010, compared to \$18.5 million for the same period of the prior year. Adjusted net income attributable to the partners excludes a number of specific items which had the net effect of increasing net income by \$50.2 million and \$22.8 million for the three months ended December 31, 2010 and 2009, respectively, as detailed in *Appendix A*. Including these items, the Partnership reported net income attributable to the partners, on a GAAP basis, of \$76.4 million and \$41.3 million for the three months ended December 31, 2010 and 2009, respectively.

The Partnership reported adjusted net income attributable to the partners⁽¹⁾ (as detailed in *Appendix A* to this release) of \$95.8 million for the year ended December 31, 2010, compared to \$78.3 million in the prior year. Adjusted net income attributable to the partners excludes a number of specific items which had the net effect of decreasing net income by \$8.1 million and \$31.0 million for the years ended December 31, 2010 and 2009, respectively, as detailed in *Appendix A*. Including these items, the Partnership reported net income attributable to the partners, on a GAAP basis, of \$87.6 million and \$47.3 million for the year ended December 31, 2010 and 2009, respectively.

For accounting purposes, the Partnership is required to recognize the changes in the fair value of its derivative instruments on the consolidated statements of income (loss). This method of accounting does not affect the Partnership's cash flows or the calculation of distributable cash flow, but results in the recognition of unrealized gains or losses on the consolidated statements of income (loss) as detailed in footnote 3 of the Summary Consolidated Statements of Income (Loss).

The Partnership's financial statements for the prior periods include historical results of vessels acquired by the Partnership from Teekay, referred to herein as the *Dropdown Predecessor*, for the period when these vessels were owned and operated by Teekay.

(1) Adjusted net income attributable to the partners is a non-GAAP financial measure. Please refer to *Appendix A* to this release for a reconciliation of this non-GAAP measure to the most directly comparable financial measure under GAAP and information about specific items affecting net loss which are typically excluded by securities analysts in their published estimates of the Partnership's financial results.

Operating Results

The following table highlights certain financial information for Teekay LNG's segments: the Liquefied Gas Segment and the Conventional Tanker Segment (please refer to the "Teekay LNG's Fleet" section of this release above and *Appendix C* for further details).

(in thousands of U.S. dollars)	<u>Three Months Ended</u> <u>December 31, 2010</u> (unaudited)			<u>Three Months Ended</u> <u>December 31, 2009</u> (unaudited)		
	Liquefied Gas Segment	Conventional Tanker Segment	Total	Liquefied Gas Segment	Conventional Tanker Segment ⁽ⁱ⁾	Total
	Net voyage revenues ⁽ⁱⁱ⁾	66,661	30,170	96,831	67,563	27,715
Vessel operating expenses	10,914	9,631	20,545	13,426	11,344	24,770
Depreciation and amortization	15,173	7,485	22,658	15,428	6,866	22,294
Cash flow from vessel operations ⁽ⁱⁱⁱ⁾	53,343	15,002	68,345	52,190	7,540	59,730

- (i) Cash flow from vessel operations for the Conventional Tanker segment only reflects the cash flows generated by the *Alexander Spirit*, *Hamilton Spirit* and *Bermuda Spirit* subsequent to their acquisition by the Partnership on March 17, 2010. Results for the *Alexander Spirit*, *Hamilton Spirit* and *Bermuda Spirit* for the periods prior to their acquisition by the Partnership when they were owned and operated by Teekay are referred to as the Dropdown Predecessor.
- (ii) Net voyage revenues represents voyage revenues less voyage expenses, which comprise all expenses relating to certain voyages, including bunker fuel expenses, port fees, canal tolls and brokerage commissions. Net voyage revenues is a non-GAAP financial measure used by certain investors to measure the financial performance of shipping companies. Please see the Partnership's web site at www.teekaylng.com for a reconciliation of this non-GAAP measure as used in this release to the most directly comparable GAAP financial measure.
- (iii) Cash flow from vessel operations represents income from vessel operations before (a) depreciation and amortization expense, (b) Dropdown Predecessors income from vessel operations, (c) adjusting for direct financing leases to a cash basis, (d) adjusting for the effect of the Toledo Spirit derivative contract and (e) gain on sale of vessel and equipment. However, the Partnership's cash flow from vessel operations does not include the Partnership's equity accounted investee's cash flow from vessel operations. Cash flow from vessel operations is included because certain investors use this data to measure a company's financial performance. Cash flow from vessel operations is not required by accounting principles generally accepted in the United States and should not be considered as an alternative to net income (loss) or any other indicator of the Partnership's performance required by accounting principles generally accepted in the United States.

Liquefied Gas Segment

Cash flow from vessel operations from the Partnership's Liquefied Gas segment increased to \$53.3 million in the fourth quarter of 2010 from \$52.2 million in the same quarter of the prior year. This increase is primarily due to a decrease in vessel operating expenses due to the timing of maintenance expenditures, partially offset by reduced operating cash flow resulting from the sale of the *Dania Spirit* in November 2010. The cash flow from vessel operations, as reported in the above table, does not include the cash flow from the Partnership's equity accounted joint ventures (40 percent interest in four Ras Gas 3 LNG carriers and 50 percent interest in two LNG carriers jointly owned with Exmar).

Conventional Tanker Segment

Cash flow from vessel operations from the Partnership's Conventional Tanker segment was \$15.0 million for the fourth quarter of 2010 compared to \$7.5 million in the same quarter of the prior year. The increase is primarily due to the acquisition of two Suezmax tankers and one Handymax tanker from Teekay in the first quarter of 2010, higher profit sharing revenue of \$1.7 million from certain of the Partnership's Suezmax tankers and lower vessel operating expenses.

Liquidity

As of December 31, 2010, the Partnership had total liquidity of \$459.7 million, comprised of \$81.1 million in cash and cash equivalents and \$378.6 million in undrawn credit facilities.

Conference Call

The Partnership plans to host a conference call on February 25, 2011 at 11:00 a.m. (ET) to discuss the results for the fourth quarter and fiscal year 2010. An accompanying investor presentation will be available on the Partnership's Web site at www.teekaylng.com prior to the start of the call. All unitholders and interested parties are invited to listen to the live conference call by choosing from the following options:

- By dialing (800) 820-0231 or (416) 640-5926, if outside North America, and quoting conference ID code 2084604.
- By accessing the webcast, which will be available on Teekay LNG's Web site at www.teekaylng.com (the archive will remain on the web site for a period of 30 days).

The conference call will be recorded and available until Friday, March 4, 2011. This recording can be accessed following the live call by dialing (888) 203-1112 or (647) 436-0148, if outside North America, and entering access code 2084604.

About Teekay LNG Partners L.P.

Teekay LNG Partners L.P. is a publicly-traded master limited partnership formed by Teekay Corporation (NYSE: TK) as part of its strategy to expand its operations in the LNG and LPG shipping sectors. Teekay LNG Partners L.P. provides LNG, LPG and crude oil marine transportation services under long-term, fixed-rate charter contracts with major energy and utility companies through its fleet of 17 LNG carriers, which includes a 50 percent ownership interest in one LNG regasification unit, five LPG/Multigas carriers and 11 conventional oil tankers. Three of the five LPG/Multigas carriers are newbuildings scheduled for delivery in 2011.

Teekay LNG Partners' common units trade on the New York Stock Exchange under the symbol "TGP".

APPENDIX B – RECONCILIATION OF NON-GAAP FINANCIAL MEASURE
(in thousands of U.S. dollars)

Description of Non-GAAP Financial Measure – Distributable Cash Flow (DCF)

Distributable cash flow represents net income adjusted for depreciation and amortization expense, non-cash items, estimated maintenance capital expenditures, gains and losses on vessel sales, unrealized gains and losses from derivatives, income from variable interest entity, deferred income taxes, foreign exchange related items and net income attributable to the Dropdown Predecessor before depreciation. Maintenance capital expenditures represent those capital expenditures required to maintain over the long-term the operating capacity of, or the revenue generated by, the Partnership's capital assets. Distributable cash flow is a quantitative standard used in the publicly-traded partnership investment community to assist in evaluating a partnership's ability to make quarterly cash distributions. Distributable cash flow is not required by accounting principles generally accepted in the United States and should not be considered as an alternative to net income or any other indicator of the Partnership's performance required by accounting principles generally accepted in the United States. The table below reconciles distributable cash flow to net income.

- (1) Net voyage revenues represents voyage revenues less voyage expenses, which comprise all expenses relating to certain voyages, including bunker fuel expenses, port fees, canal tolls and brokerage commissions. Net voyage revenues is a non-GAAP financial measure used by certain investors to measure the financial performance of shipping companies. Please see the Partnership's web site at www.teekaylng.com for a reconciliation of this non-GAAP measure as used in this release to the most directly comparable GAAP financial measure.
- (2) Income from vessel operations for the *Alexander Spirit*, *Hamilton Spirit* and *Bermuda Spirit* for the periods prior to their acquisition by the Partnership when they were owned and operated by Teekay, are referred to herein as the Dropdown Predecessor.

FORWARD LOOKING STATEMENTS

This release contains forward-looking statements (as defined in Section 21E of the Securities Exchange Act of 1934, as amended) which reflect management's current views with respect to certain future events and performance, including statements regarding: the Partnership's future growth opportunities; the timing and certainty of the outcome of the reviews by the Partnership's Board of Directors and its Conflicts Committee regarding the offer to acquire from Teekay Corporation its interest in the Angola LNG project and the impact on future cash flows; the timing of LNG and LPG/Multigas newbuilding deliveries and incremental cash flows relating long-term, fixed-rate contracts serviced by these newbuildings; the growth opportunities in floating LNG regasification market; the Partnership's financial position, including available liquidity; and the potential for the Partnership to acquire additional vessels and long-term charters from third parties. The following factors are among those that could cause actual results to differ materially from the forward-looking statements, which involve risks and uncertainties, and that should be considered in evaluating any such statement: the unit price of equity offerings to finance acquisitions; changes in production of LNG or LPG, either generally or in particular regions; required approvals by the Conflicts Committee of the Board of Directors of the Partnership's general partner to acquire any projects offered to the Partnership by Teekay Corporation; less than anticipated revenues or higher than anticipated costs or capital requirements; changes in trading patterns significantly affecting overall vessel tonnage requirements; changes in applicable industry laws and regulations and the timing of implementation of new laws and regulations; the potential for early termination of long-term contracts and inability of the Partnership to renew or replace long-term contracts; LNG and LPG/Multigas project delays or shipyard production delays which would change the expected timing and cost of newbuild vessel deliveries; the Partnership's ability to raise financing to purchase additional vessels or to pursue LNG or LPG/Multigas projects; changes to the amount or proportion of revenues, expenses, or debt service costs denominated in foreign currencies; and other factors discussed in Teekay LNG Partners' filings from time to time with the SEC, including its Report on Form 20-F for the fiscal year ended December 31, 2009. The Partnership expressly disclaims any obligation to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Partnership's expectations with respect thereto or any change in events, conditions or circumstances on which any such statement is based.
